

7

11	System integration and cryotest to base temperature and to check temperature control function across the temperature range (specification 6)	1
12	System integration and cryo-test to be included to base temperature and to check the temperature control function across the temperature range. (specification 7)	1
13	Temperature controller suitable to the sensor output and also with variable heating power for heating and temperature reader (specification 8)	1
14	Adsorber for compressor (spare)	1
15	Self sealing coupling	2
16	Set of replacement flexible helium gas hoses	1
