Equipped with a touch screen display for step by step user guidance for the entire measurement process.</li><li>2. System incorporates <b>three-point calibration</b> for better accuracy and reliable results and with selectability for two point as required, as <b>standard</b> feature.</li><li>3. The instrument needs only low sample volume, (when equipped with optional 15µl version) permitting easy repeat measurements and precious samples.</li><li>4. Instrument takes less than a minute for each measurement, and hence ideal for routine and serial measurements even in higher workload facilities.</li><li>5. Incorporates QM assistance for the laboratory supervisor and best suited for routine and quality control facilities equally well.</li><li>6. The automatic initialisation of the crystallisation process at standardised super cooling, ensures very <b>precise</b> and <b>repeatable</b> results and no longer dependant on the operator.</li><li>7. The last result is available on the display and after the measurement is over.</li><li>8. Automatic error detection with the clear indication of messages assures confidence in the final results being reported.</li><li>9. The system has a very wide measurement range from 0 to upto 3000mOsmol/kg with a resolution of one mOsmol/kg and with excellent reproducibility over the entire measurement range of interest.</li><li>10. Can be equipped optionally with a special option to measure 15µl sample, the lowest sample volume available amongst freezing point osmometers, in case of special requirements involving human, vet and research applications.</li><li>11. It is the most economical system in terms of life cycle cost, thanks to relatively low cost on consumables, calibrators, controls and spare parts coupled with infrequent calibration requirement and overall maintenance cost with very reliable performance.</li><li>12. The standard equipment features communication through DTR RS232 serial port, USB and barcode scanner port thereby offering extensive and flexible data handing possibilities.</li><li>13. The machine can be equipped optionally with utility oriented accessories for enhanced performance including Option M special version for 15µl sample volume, barcode scanner, graphical dot matrix printer, offering specific configuration possibilities, to suit every lab requirement.</li></ol>	01

14. The machine can be equipped with <b>optional “OsomoSoft” software</b> for data transfer and on board QC package including storage of virtually unlimited number of values for controls, calibrators and sample results with S.D, RSD, CV% and Levy-Jennings plot for high performance levels and meeting compliance requirement.
